PM'S YOUTH BUSINESS LOANS FIRST BALLOTING

The Government of Pakistan, in December 2013, launched six schemes to reduce unemployment and empower the youth of Pakistan. The Prime Minister's Youth Business Loans (PMYBL) is one such program which provides business loans to 21 - 45 year old young men and women, especially the educated: up to two million rupees at the concessionary price of 8 percent.

In this scheme, 50% of total loans have been allocated for women and 5% quota has been reserved for the families of shaheed, widows and disabled persons to start their own businesses. Initially, these loans are provided by the First Women Bank Limited and National Bank of Pakistan.

All 41 FWBL branches in 24 cities are authorized to provide these loans. Special counters have been set up to facilitate women applicants.

The first electronic balloting for the scheme took place at the Convention Center, Islamabad, on February 28, 2014. Addressing the Ceremony, Prime Minister Muhammad Nawaz Sharif said that the Government is committed to empowering the youth by providing them Rs. 3.7 billion in easy loans as it would not only help the country, but also strengthen national economy.

The Prime Minister said that in the past up to 70% of the youth population had no access to loans, as only influential businessmen were eligible to get loans from banks. He said that the youth would lead the nation, as in the developed countries, 80% of the youth were playing their role in strengthening the economy.

He said that the youth should come forward by starting their own businesses in various sectors which would not only benefit them, but they would also be in a position to provide jobs to other people. The Prime Minister particularly urged women and the youth of KPK, Sindh and Balochistan to take advantage of the loan scheme.

He said around 38,000 applications, including 28,000 from Punjab, 600 from Islamabad (Capital Territory), 3,500 from KPK, 100 from Gilgit Baltistan, 1,000 from Balochistan, 500 from AJK and 3,000 from Sindh, were received. He said out of these applications 6,127 were approved for balloting, of which 5,399 would be given loans. The Prime Minister said that the applicants were selected according to the provincial quota and that 100,000 loans would be awarded in one year. Later, the Prime Minister performed electronic balloting of the applications for awarding of loans.

Earlier, the Federal Minister for Finance, Mr. Ishaq Dar, said that the future of country's economy depends on making the youth self-sufficient. He asked banks to be a part of this scheme.

The balloting selected sixty four (64) applicants for receiving the Prime Minister's Youth Business Loans through First Women Bank Limited.

To create awareness amongst potential women entrepreneurs about PMYBL, First Women Bank organized special Awareness Sessions and Seminars throughout the country. Below is the report on the sessions.

Addressing the seminar organized by the Pakistan Gems and Jewellery Development Company (PGJDC) at its Karachi Training Center, Ms. Charmaine Hidayatullah, the Acting President of First Women Bank Limited (FWBL), said that the greatest wealth and strength of any nation is its youth and through Prime Minister's Youth Business Loans (PMYBL), the Government has reposed full trust on the youth of Pakistan and expects that the loans would be utilized effectively to generate business and employment opportunities. She highlighted the handholding measures taken by the Bank, including specialized trainings in business-related areas, Business Development and Financial Services (BDFS), including

financial education, in collaboration with SMEDA for encouraging and guiding potential women entrepreneurs. All branches of FWBL in 24 cities are authorized to provide these loans and special counters are facilitating women applicants, she stated.

Earlier, in his welcome note, Mr. Khalid Aziz, General Manager Training R&D, requested the Bank to collaborate with PGJDC for organizing such seminars in other parts of the country. The seminar was followed by a question and answer session. The Acting President, accompanied by the FWBL team, visited the Center and appreciated the facilities being provided by the Pakistan Gems and Jewellery Development Company.

FWBL also carried out seminars on Prime Minister's Youth Business Loans in Lahore and Peshawar in collaboration with PGJDC.

FWBL AND SMEDA COLLABORATE TO CREATE AWARENESS ON PMYBL

UN WOMEN COMMENDS AND RECOGNIZES FWBL

Ms. Lakshmi Puri, UN Women Deputy Executive Director, said "I would like to commend the Government of Pakistan and its Permanent Mission to the United Nations for setting up two very successful programmes we are reviewing today – the First Women Bank of Pakistan and the Benazir Income Support Program."

She was speaking at a CSW58 side event on Micro-finance and Empowerment of Pakistani Women, organized by the Permanent Mission of Pakistan in New York on March 18, 2014.

Furthermore, Ms. Puri emphasized that programs such as the First Women Bank Limited should be replicated throughout the world and integrated in the broader gender equality and women's empowerment agenda.

FWBL feels honored and privileged for being acknowledged by UN Women.

FIRST WOMEN BANK MOVES ADC OPERATIONS IN-HOUSE

First Women Bank Pakistan, having the privilege of being the first bank for women in the region, has successfully migrated its ATM Switch and Card Management in-house after staying into an outsourced setup for many years. TPS worked closely with the Bank and provided both technology as well as technical and business consultancy to enable seamless migration with no customer impact.

FWBL, after evaluating various financial models, found hosting ADC operations in-house as the favorable alternative. Successful migration has not only improved its products and services but also lowered the recurring costs and proved to be more reliable. An in-house setup improves control over operations and quality of service, reduces time to market new initiatives, removes the risk of sharing confidential information to an external entity and facilitates enhancement of products and services as per the Bank's roadmap.

The Bank had earlier been connected to MNET shared switch network and had its card production

and ATM acquiring outsourced. With the migration done, the Bank is now connected to ILINK, having its card production and ATM acquiring driven from Phoenix in-house and will now be able to launch various e-banking initiatives timely.

After the successful completion of the initial project, which was a smooth transition from the outsource to the in-house model, the Bank now aims to provide customers with latest e-banking services such as person to person funds transfer (both intra-bank and inter-bank), utility bill payment and access to ILINK POS network.

ON THE LIGHTER SIDE

SELF APPRAISAL

A little boy went to a telephone booth which was at the cash counter of a store and dialled a number. The store owner observed and listened to the conversation:

Boy: "Lady! Can you give me the job of cutting your lawn?"

Woman [on the phone]: "I already have someone to cut my lawn!"

Boy: "Lady, I will cut your lawn for half the price than the person who cuts your lawn now."

Woman: "I'm very satisfied with the person who is presently cutting my lawn."

Boy [with more perseverance]: "Lady, I'll even sweep the floor and the stairs of your house for free!"

Woman: "No, thank you."

The store owner who was listening to all this walked over to the boy.

Store Owner: "Boy, I like your positive spirit and would like to offer you a job."

Boy: "No thanks."

Store Owner: "But you were really pleading for one!"

Boy: "No Sir, I was just checking my performance at the job I already have. I am the one who is working for that lady I was talking to!"

FINANCIAL ADVISORY

Two friends, Sam and John, were discussing their uncontrollable expenses.

Sam: "How can I double my money?"

John: "The quickest way to double your money is to fold it over and put it back in your pocket."

THE RAISE

Sam walks into his boss' office and says "Sir, I'll be straight with you – I know the economy isn't great, but I have over three companies after me and I would like to respectfully ask for a raise."

After haggling, the supervisor finally agrees to give a 5% raise and Sam happily gets up to leave.

Boss: "By the way," asks the boss, "Which three companies are after you?"

Sam: "The electric, water and phone company!"
